

Wireless USB 2.0 Print Server

One USB 2.0 Printer Port

Support Wired or Wireless Network

The print server can support 10/100Mbps Wired and IEEE 802.11g/b wireless network. Users can share the printer and configure the print server either through wired or wireless network.

Easy Installation and Configuration (with Web-Based Configuration)

The print server's easy-to-use windows installation wizard allow for quick installation and setup the print server. The print server can also be conveniently configured from any network client that support web-browsing.

Support Peer-to-Peer and Server-Based Printing

Supports both Peer-to-Peer and Server-based printing. LAN clients can connect directly with the print server to execute printing jobs (Peer-to-Peer printing); or clients can send print jobs first to a server (queuing jobs) and allow the server to connect with the print server to execute the printing jobs (Server-based printing).

Provide Complete Printing Methods

The print server provides LPR, IPP, SMB/TCP, Raw Printing and Unix Logical Printer printing methods. You can choose the best printing method according to your environment.

Supports Major Operating Systems

The print server is compatible with all major operating systems used today, for example Windows 95/98SE/Me/NT/2000/XP/2003, NetWare (3.x above), MAC OS and Unix/Linux environments.

Fault-Tolerant Firmware Upgrades

Users need not worry about errors occur in the midst of an upgrade, thus preventing the print server from operating. The print server's fault-tolerant upgrade function allows for re-upgrades should problems occur during the initial upgrade.

Feature

- Comply with IEEE 802.3, IEEE 802.3u Wired Ethernet and IEEE 802.11g/b (2.4GHz) Wireless LAN standards.
- Support 10/100Mbps speed in Wired Network and up to 54Mbps data rate in Wireless Network.
- Provides one USB 2.0 port to connect to printer.
- Share printer with USB port to all PCs through Wired or Wireless Network.
- Supports TCP/IP, IPX/SPX, NetBEUI and AppleTalk network protocols.
- Supports LPR, IPP, SMB/TCP, Raw Printing and Unix Logical printing protocols.
- Supports Peer-to-Peer Printing (TCP/IP/IPX/NetBEUI/AppleTalk).
- Supports Server-based printing (Novell NetWare and Windows).
- Compatible with all major operating systems (Windows 95/98SE/Me/NT/2000/XP/2003, NetWare (3.x above), MAC OS and Unix/Linux).
- Supports DHCP Server and Client protocol.
- Supports Web-based management and Windows Configuration Utility.
- Provides easy-to-use installation and setup program.
- Supports Fault-Tolerant Upgrade capability.

Specification

Product	Wireless USB 2.0 Print Server
CPU	RISC CPU
Flash	1MB NOR Flash
RAM	8MB SDRAM
Printer Port	USB 2.0 Type A x 1
LAN Port	10/100M UTP Port x 1 (Auto-MDI/MDI-X)
Antenna	External 2dBi Dipole Antenna
Output Power	16dBm-18dBm
Power	5V DC, 1A Power Adaptor
Dimension	20(H) x 58(W) x 82(D) mm
Temperature	0~55°C
Humidity	10~90% (Non-Condensing)
Certification	FCC, CE

Art. No.: DN-13014

EAN: 200413 / 4016032200413
